Privacy Notice

On data processing and event registration related to the image and audio recordings (video recordings) made at the event titled "Budapest Integrity Conference 2026", to be held on the 5th and 6th of November 2026

Data Controller

Integrity Authority (represented by: President Ferenc Pál Biró)
Headquarters: 1051 Budapest, Széchényi István tér 7-8.
Email address: info@integritashatosag.hu

Data Protection Officer

Data Protection Officer of the Authority: Dr Zsolt Volenszki
Email address: adatvedelem@integritashatosag.hu

Purpose of Data Processing	The purpose of data processing is to organise the event, to estimate the expected number of participants (online and on-site registration), and to maintain contact. The purpose of taking photographs and video recordings at the event is to capture the event and to document that it took place. The recordings may be published on the website and social media pages of the Integrity Authority.
Legal Basis of Data Processing	**Registration:** the consent of the data subject pursuant to Article 6(1)(a) of the GDPR. Data concerning food intolerances: the Authority shall process food intolerance-related health data of the persons registered as participants based on their explicit consent (Article 6(1)(a) and Article 9(2)(a) of the GDPR). **Taking photographs or making video recordings in which a person is identifiable:** the data subject's consent given in writing pursuant to Article 6(1)(a) of the GDPR. **Taking crowd shots:** in respect of the Authority, pursuant to Article 6(1)(e) of the GDPR, the performance of the Authority's task carried out in the public interest, namely providing public information about its activities. Under Section 2:48(2) of Act V of 2013 on the Civil Code, the consent of the data subject is not required for making and using crowd shots or recordings of public appearances in public life. The data subject may object to the processing of crowd shots at any time.

Scope of Personal Data Processed	The Authority processes and keeps records of the names, email addresses (work email addresses) and job titles of the persons registered as participants at the event. In addition, the Authority processes and keeps records of any personal data that the data subject is not required to provide on the registration form but which the data subject has made available to the Authority. Two types of recordings may be made at the event: - **crowd shots:** recordings of the audience or of the crowd of participants, in which individuals do not appear independently but as part of the crowd, - **photographs or video recordings in which a person is identifiable:** in particular, recordings of speakers, persons making statements and interviewees, as well as any recording in which the data subject can be individually identified. If a person is singled out in a crowd shot, either at the time the recording is made (e.g. by zooming in or using a telephoto lens) or through subsequent editing (e.g. by cropping or enlarging the image), the recording is considered a recording in which a person is identifiable, and thus the consent of the data subject is required for its publication. The Authority processes the image, voice and the content of the statements made by the data subject on the recording. In the case of recordings in which a person is identifiable, the Authority also processes and keeps records of the name, organisation (job title) and signature of the data subject, as provided in the consent form. The data subject may withdraw his or her consent at any time by sending a statement to the adatvedelem@integritashatosag.hu email address. The withdrawal of consent does not affect the lawfulness of the processing carried out prior to the withdrawal. In the absence of consent, the data controller shall not publish any recording in which the data subject is identifiable. The recordings may be used solely for the purpose of providing information about the event; they will not be used to illustrate any content or ideas unrelated to the event.
Primary Source of Data	The Authority only processes personal data that originates directly from the data subject.
Data Processor	For the operation of the registration platform, the performance of on-site registration tasks, and the production of photographs and video recordings at the

	event, the Authority engages the following data processor: Prestige Solutions Korlátolt Felelősségű Társaság (represented by: Márk Mihály Bodák) Registered office: 1139 Budapest, Forgách utca 11. Company registration number: 01 09 735237 Email address: iroda@prestigesolutions.hu Prestige Solutions Kft. - operates the registration platform and performs on-site registration tasks on behalf of and in accordance with the instructions of the Authority; - edits and cuts the raw footage of the photographs and video recordings made at the event and securely stores both the raw and edited material until it is handed over to the Authority. - Decisions on the acceptance of registrations and on admission to the event are made solely by the Authority. Prestige Solutions Kft.. does not take part in these decisions, it confirms registrations and carries out on-site admission solely on the basis of the decisions and instructions of the Authority, in accordance with the list of participants approved by the Authority.
Duration of Data Processing	- Prestige Solutions Kft. deletes the raw and edited material within 3 days following the transfer of the final material to the Authority. - The Authority processes the published recordings in which a data subject is identifiable until consent is withdrawn or, in the case of crowed shots, until an objection is accepted. In the absence of an objection, the recordings are processed for as long as necessary to achieve the purpose of the processing. - The Authority deletes any unpublished recordings after 1 year following the event. - The Authority deletes the registration data 5 days after the event. Prestige Solutions Kft. deletes the registration data from the registration platform and its own systems following the transfer of the list of participants to the Authority and no later than 3 days after the event. - Data concerning food intolerances will be permanently deleted within 3 days following the event. - The Authority processes the consent forms for 5 years following the withdrawal of consent or the removal of the recording, in connection with the establishment, exercise or defence of legal claims.

Access to Data and Data Transfers, Data Security Measures	Access to the recordings is granted to those members of Prestige Solutions Kft.'s event staff and editing team , and those employees of the Authority responsible for communications and event organisation, who require such access to the recordings for the performance of their duties. Access to the consent forms is restricted exclusively to the Authority's designated staff members responsible for communications. The published recordings will become publicly accessible to anyone. The operators of the social media platforms (Google Ireland Ltd. – YouTube; Meta Platforms Ireland Ltd. – Facebook; LinkedIn Ireland Unlimited Company – LinkedIn) qualify as independent controllers with regard to the content appearing on their platforms and act in accordance with their own data processing terms. The event is open to the press; therefore, representatives of the media content providers present at the event may make their own recordings. Each media content provider qualifies as an independent controller in respect of the recordings it makes. The Authority ensures, by means of appropriate technical, IT, physical and personnel security measures, that the personal data it processes are protected against, among other things, unauthorised deletion, transmission, access, disclosure, and unauthorised alteration. The recordings are handed over to the Authority through a secure channel. The Controller does not use automated decision-making or profiling and does not transfer personal data to third countries.

Rights of Data Subjects

1. **Right to Information and Access [GDPR Articles 13-15]**

The data subject shall have the right to request, through the Data Protection Officer, information on whether his or her personal data are being processed, and where such processing is taking place , to obtain information about:

- which of his or her personal data the Authority processes;
- the legal basis for the processing;
- the purposes for which the personal data are processed;
- the period for which the personal data are processed;

and

- to whom, when, and on what legal basis the Authority has granted access to his or her personal data, specifying which personal data were made accessible, or to whom the Authority has disclosed his or her personal data;

- the source from which his or her personal data were obtained (if such data were not provided to the Authority by the data subject);
- whether the Authority uses automated decision-making, including profiling, and the logic underlying such decision-making.

The Authority shall provide the data subject, upon request, with a copy of the personal data being processed free of charge for the first time; for subsequent requests, the Authority may charge a reasonable fee based on administrative costs.

To ensure compliance with data security requirements and protect the rights of the data subject, the Authority shall verify whether the person exercising the right of access is identical to the data subject; therefore, providing information, granting access to the data, and issuing copies are all conditional upon verifying the identity of the data subject.

2. Right to Rectification [GDPR Article 16]

The data subject may request, through the Data Protection Officer, that the Authority modify any of his or her personal data. If the data subject can credibly verify the accuracy of the rectified data, the Authority shall comply with the request within one month at the latest and shall notify the data subject at the contact details provided.

3. Right to Erasure ('Right to be Forgotten') [GDPR Article 17]

The data subject shall have the right to request that the Authority erase his or her personal data without undue delay, and the Authority shall erase the personal data concerning the data subject without undue delay where any of the conditions set out in Article 17(1)(a)–(f) of the GDPR is met.

Where the Authority has made the personal data public and is obliged, pursuant to Article 17(1) of the GDPR, to erase the personal data, it shall, considering the available technology and the cost of implementation, take all reasonable steps, including technical measures, to inform controllers which are processing the personal data that the data subject has requested the erasure of any links to, or copies or replications of, those personal data.

The right to erasure shall not apply to the data subject where the processing of personal data is necessary for—

- exercising the right of freedom of expression and information;
- complying with a legal obligation which requires processing by EU or Member State law to which the Authority is subject, or for the performance of a task carried out in the public interest or in the exercise of official authority vested in the Authority;
- reasons of public interest in the area of public health in accordance with Article 9(2)(h) and (i) and Article 9(3) of the GDPR;
  archiving purposes in the public interest, scientific or historical research purposes or statistical purposes in accordance with Article 89(1) of the GDPR, in so far as the right to erasure is likely to render impossible or seriously impair the achievement of the objectives of that processing;
- for the establishment, exercise or defence of legal claims.

4. **Right to Restriction of Processing [GDPR Article 18]**

Under this right, the data subject shall be entitled to request that the Authority restrict the processing of personal data if any of the following conditions are met:

- the data subject contests the accuracy of the personal data; in this case, the restriction shall apply for the period enabling the Authority to verify the accuracy of the personal data;
- the processing is unlawful, and the data subject opposes the erasure of the personal data and requests the restriction of their use instead;
- the Authority no longer needs the personal data for the purpose of processing, but the data subject requires them for the establishment, exercise, or defence of legal claims;
- the data subject has objected to the processing pursuant to Article 21(1); in such case, the restriction shall apply pending the verification whether the Authority's legitimate grounds override those of the data subject.

Where the processing is restricted, such personal data shall, with the exception of storage, be processed only with the data subject's consent or for the establishment, exercise or defence of legal claims, for the protection of the rights of another natural or legal person, or for reasons of important public interest of the EU or a Member State.

5. **Right to Data Portability [GDPR Article 20]**

The data subject may exercise this right only where the following cumulative conditions are met:

- the data to be transmitted qualify as personal data;
- the personal data have been provided to the Authority by the data subject;
- the processing is based on the data subject's consent pursuant to Article 6(1)(a) or Article 9(2)(a) of the GDPR, or on a contract pursuant to Article 6(1)(b);
- the data processing is carried out by automated means.

The exercise of the right to data portability shall not, by itself, imply that the Authority must delete the personal data; the data subject may request deletion separately. The Authority shall delete the personal data without the data subject's request if further processing is unnecessary for the purposes of data processing.

Where the processing of personal data is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the Authority, the data subject may not exercise this right.

6. **Right to Object [GDPR Article 21]**

The data subject shall have the right to object, on grounds relating to his or her particular situation, at any time to the processing of his or her personal data that is based on Article 6(1)(e) or (f) of the GDPR, including profiling based on those provisions. In such cases, the Authority shall no longer process the personal data unless it demonstrates compelling

legitimate grounds for the processing which override the interests, rights and freedoms of the data subject, or relate to the establishment, exercise, or defence of legal claims.

7. **Right to Lodge a Complaint with a Supervisory Authority [GDPR Article 77] and Right to an Effective Judicial Remedy Against a Controller or Processor [GDPR Article 79]**

If the data subject considers that the processing of his or her personal data by the Authority has infringed the provisions of the GDPR,

1. he or she may lodge a complaint with the National Authority for Data Protection and Freedom of Information (address: 1055 Budapest, Falk Miksa utca 9-11., mailing address: 1363 Budapest, Pf. 9., Email address: ugyfelszolgalat@naih.hu, website: www.naih.hu), or
2. he or she has the option to bring the matter before a court to protect his or her data, which shall deal with the case as a matter of urgency. In such cases, the data subject shall be free to decide whether to file his or her claim with the competent court based on his or her place of residence (permanent address), place of stay (temporary address), or the seat of the Authority. The competent court based on the data subject's place of residence or place of stay can be found at https://birosag.hu/birosag-kereso. The Budapest Metropolitan Court has jurisdiction over proceedings based on Authority's registered seat.

Declaration of consent

for the making of image and audio recordings and for the processing of personal data provided during event registration

Event: The Integrity Authority's "**Budapest Integrity Conference 2026"** (the conference is open to the press)
Date: 5-6 November 2026.
Venue: Museum of Ethnography (Budapest 1146, Dózsa György út 35.)

I, the undersigned: ……
organisation, job title: ……
as data subject, hereby consent, by signing this declaration, to the processing of my personal data as set out in the Privacy Notice.

I acknowledge that the legal basis for the processing of my personal data is my consent pursuant to Article 6(1)(a) of the GDPR[1] and that the legal basis for the processing of my health data concerning food intolerance is Article 6(1)(a) and Article 9(2)(a) of the GDPR[2].

I acknowledge that I may withdraw my consent at any time by sending a statement to the adatvedelem@integritashatosag.hu email address. The withdrawal of consent does not affect the lawfulness of the processing carried out on the basis of consent before its withdrawal. Upon withdrawal of consent, the Authority shall remove from its own platforms any recording in which I am identifiable; however, the data controllers have no control over recordings saved or shared by third parties, or published in press publications, between the time of publication and the time of removal.

I acknowledge that the operators of social media platforms act as independent data controllers in respect of the content appearing on their platforms, and that the data controller is not responsible for the context in which the recordings appear (for example, content displayed alongside them by the platform's algorithm).

I acknowledge that refusing to give consent will not result in any disadvantage: I may still attend the event, no recording in which I am identifiable will be published; however, I may appear in crowd shots taken of the audience, which I may object to in accordance with the Privacy Notice.

By signing this declaration, I hereby confirm that I have read and understood the content of the Privacy Notice on the processing of personal data at the event.

Date: Budapest, . …….

……

Signature of data subject

[1] Processing shall be lawful if the data subject has given consent to the processing of his or her personal data for one or more specific purposes.
[2] the data subject has given explicit consent to the processing of those personal data for one or more specified purposes, except where Union or Member State law provide that the prohibition referred to in paragraph 1 may not be lifted by the data subject
